it your
BUSINESS
to help
conserve
water
today!

Wilson
the Worm

- Check your meter to determine if there are any leaks on the property. If leaks are found, fix them promptly.
- Visually inspect your irrigation system for broken sprinkler heads and over-irrigation (water running off the landscape). If necessary, make repairs and adjust run-times.
- Install a “smart” controller and rain shut-off device. Check with your water provider for rebates.
- Install 1.5-gallon-per-minute aerators and high-efficiency toilets and urinals. Contact your water provider for rebates.
- Use a broom instead of a hose to sweep away debris from sidewalks and parking lots.
- Call your water provider or the Business Water Project at (707) 565-6455 to set up a FREE site assessment to help you reduce water use.

Visit www.sonomacountywater.org to learn more about water conservation programs and rebates available through your local water supplier:
